

MEMBERSHIP CRITERIA & BENEFITS

Who we are.

As the first national research network in Canada focusing on brain development and neurodevelopmental disabilities, Kids Brain Health is dedicated to ensuring the best possible outcomes for affected kids and their families.

We set out as NeuroDevNet in 2009 to study typical brain development, and identify what goes wrong - and why - in brain-based disabilities. Our aim: to meaningfully improve quality of life for children and their families through early diagnosis, effective treatment, and support for caregivers. We continue this vital work under our new banner as Kids Brain Health, bringing together leading researchers in basic and clinical sciences, and training a new generation of Canadian researchers dedicated to the same goals.

Who you are.

Are you a parent, clinician, practitioner, or anyone otherwise interested in the community of stakeholders in neurodevelopmental conditions?
You are likely an Individual Member.

Are you representing an organization who would like to build ties in the community of stakeholders in neurodevelopmental conditions?
You are likely an Organization Member.

Are you part of an institution conducting neurodevelopmental research in Canada, and would like to get involved in Network activities?
You are likely an Associate Investigator or Associate Trainee.

Are you representing an organization who would like to partner with or support the Network in a collaborative or administrative capacity?
Please contact us for more information.

NETWORK AFFILIATE

Non-profit, public, and private organizations who are interested in partnering with Kids Brain Health and with leaders in the neuroscience field.

Company
Government
Organization
Agency

Must sign affiliation agreement and receive Approval from our Board of Directors

BENEFITS for Affiliates

Receive all Kids Brain Health Network public communications including news, updates and monthly newsletter.

Non-profit Affiliates are eligible for reduced rates to our annual network conference.

Affiliates who provide monetary or in-kind support to the Network may be featured on our website.

NETWORK MEMBER

Network-funded investigators and the trainees they supervise. Check our website for more information on available funding opportunities.

NETWORK INVESTIGATOR

Faculty or adjunct faculty members accepted by our Board of Directors to conduct neurodevelopmental research. Funded by the Network.

NETWORK TRAINEE

Residents, graduate, and post-doctoral students who conduct neurodevelopmental research with our Network Investigators.

BENEFITS for New Investigators & Trainees

Full access to network training resources. Member and associate research may be shared with the network through public communications.

Trainees eligible for reduced student rates to annual network conferences, workshops, and other educational opportunities.

Associates eligible to apply for Network funding.

NON-MEMBER INSTITUTION

Institutions conducting neurodevelopmental research in Canada who would like to establish a working relationship with Kids Brain Health.

ASSOCIATE INVESTIGATOR

Faculty or adjunct faculty members who wish to collaborate with Kids Brain Health on research and other activities. Not funded by the Network.

ASSOCIATE TRAINEE

Residents, graduate and post-doctoral students who conduct neurodevelopmental research, and would like to get involved in network activities.

ORGANIZATION MEMBER

Organizations who would like to learn about Kids Brain Health's work, and to build ties with the neurodevelopmental community.
