

# KBHN Annual Outstanding Awards 2021: Outstanding KBHN Trainee Member Award Call for Nominations

KBHN National Training Program aims to enhance the training of the next generation of researchers and professionals to develop and implement innovative solutions and services with the potential to improve the lives of children living with neurodevelopmental disabilities and their families.

To support, promote, and acknowledge those who have shown excellence and dedication within the network, three awards are available for those with outstanding achievements: the Outstanding KBHN Trainee Member Award, the Outstanding KBHN Promising Researcher Award, and the Outstanding KBHN Mentor/Supervisor Award.

## SUMMARY

- **Award:** One award of \$1500 with official certificate of recognition.
- **Eligibility:** The nominee must be a KBHN trainee in the year 2020-2021. All levels of trainees may be nominated, including undergraduate students, graduate students, and postdoctoral fellows.
- **Application Deadline:** February 25th, 2022
- **Award Notice:** April 5th, 2022

## What is the Outstanding KBHN Trainee Member Award?

This award recognizes a trainee's outstanding contribution and commitment to the KBHN network. The recipient dedicates large amounts of time and energy to the KBHN's network activities, including, but not limited to, conferences, webinars, and workshops. The individual has shown enthusiasm through high levels of engagement and involvement.

## Who Can be Nominated?

- Any KBHN trainee active in the year 2020-2021
- All levels of trainees, including Undergraduate Students, Graduate Students, and Postdoctoral Fellows
- All academic disciplines

## Who Can Make a Nomination?

Trainees can nominate themselves. For the self-nomination process, an additional support letter is required. This letter needs to be provided by a person entitled and capable to support the self-nomination, such as a supervisor or a colleague.

Any KBHN member (including trainees, investigators, staff members, partners, and family members) can nominate a trainee. Only one nomination is accepted per nominator. No additional recommendation letter is required. Please note that all nominations are confidential – please do not notify the candidate about the nomination.

### Why Nominate?

- Nomination recognizes, celebrates, and encourages excellence from those who contribute greatly to the KBHN network by showing passion and devotion
- Nominee will receive formal recognition from the KBHN network to showcase their achievements

### How to Nominate?

To nominate a trainee or self-nominate, please fill the form “Application Form – Outstanding KBHN Trainee Member Award.”

Nominations are due by **February 25th, 2022**.

Please reach out to the KBHN training team ([training@kidsbrainhealth.ca](mailto:training@kidsbrainhealth.ca)) for any questions.

### About the Kids Brain Health Network

- The Kids Brain Health Network (KBHN) is a national research network established under the Networks of Centres of Excellence (NCE) Program, an initiative of the Canadian government to foster partnerships between universities, industry, government, and not-for-profit organizations with the goal of mobilizing knowledge generated through research in ways that deliver socio-economic benefit to Canada.
- As a national organization, KBHN partners with community groups, non-profit organizations, industry, parents, clinicians, health professionals, and provincial and federal governments to advance evidence-based solutions to improve outcomes for children with neurodevelopmental disabilities and their families. KBHN particularly values the voice of families and individuals with lived experience in the research that it funds, as partners in the research itself, in the review process and in mobilizing the knowledge generated.
- As a part of this network, the KBHN National Training Program aims to enhance the training of the next generation of researchers and professionals to undertake interdisciplinary and inclusive research to generate and/or apply new knowledge.

### Equity, Diversity, and Inclusion (EDI) Statement

KBHN is committed to excellence in research and research training. Achieving a more equitable, diverse, and inclusive Canadian research enterprise is essential to creating the excellent, innovative, and impactful research necessary to advance

knowledge and understanding, and to respond to local, national, and global challenges in the field of neurodevelopmental disabilities.

With these goals in mind, KBHN is committed to:

- Supporting equitable access to funding opportunities for all members of the research community
- Promoting the integration of equity, diversity and inclusion-related considerations in research design and practices
- Increasing equitable and inclusive participation in the research system, including on research teams
- Collecting the data and conducting the analyses needed to include equity, diversity, and inclusion considerations in decision-making

Through these means, KBHN will work with those involved in the research system to develop the inclusive culture needed for research excellence and to achieve outcomes that are rigorous, relevant, and accessible to the concerned stakeholders in the field of neurodevelopmental disabilities.
