

KBHN Annual Outstanding Awards 2023

Outstanding KBHN Mentor/Supervisor Award Call for Proposal

KBHN National Training Program aims to enhance the training of the next generation of researchers and professionals to develop and implement innovative solutions and services with the potential to improve the lives of children living with neurodevelopmental disabilities and their families.

To support, promote, and acknowledge those who have shown excellence and dedication within the network, four awards are available for those with outstanding achievements: the Outstanding KBHN Trainee Member Award, the Outstanding KBHN Promising Researcher Award, the **Outstanding KBHN Mentor/Supervisor Award**, and the Outstanding KBHN Leadership Award in Family Engagement in Research.

SUMMARY

- **Award:** The awardee will be funded to register and travel to the 2024 KBHN Conference. A certificate and trophy will be awarded during the 2024 KBHN Conference. The awardee will be featured on the KBHN website, newsletter, and social media.
- **Eligibility:** Any mentor or supervisor contributing to the KBHN training program. Researchers and professionals from all disciplines are eligible.
- **Adjudication:** This award will be adjudicated by KBHN PART Committee (trainees committee).
- **Application Deadline:** January 18, 2024
- **Award Notice:** February 30, 2024

What is the Outstanding KBHN Mentor/Supervisor Award?

This award is presented to a researcher or a professional who provided outstanding supervision or mentorship with the ability to inspire KBHN trainees. This person coaches and encourages others to succeed in fulfilling the KBHN's mission to conduct research in an inclusive and dynamic learning environment and translates that knowledge into practice.

Who Can be Nominated?

- Any mentor or supervisor contributing to the KBHN training program
- This award is not limited to formal principal investigators or scientists
- Researchers and professionals from all disciplines are eligible

Nomination of the same person is accepted only when they are nominated for a different Outstanding Award category AND they are nominated by different nominators. If a nominee is accepted for more than one Outstanding Award, they will be evaluated on a case-by-case basis.

Who Can Make a Nomination?

Any KBHN member (including trainees, investigators, staff members, partners, and family members) can nominate a mentor/supervisor. Only one nomination is accepted per nominator. Self-nomination will not be accepted. Please note that all nominations are confidential – please do not notify the candidate about the nomination.

A nominator could nominate only one person per Outstanding Award category.

Why Nominate?

- Nomination recognizes, celebrates, and encourages excellence from supervisors or mentors who exceeded expectations and demonstrated outstanding qualities coaching a trainee/mentee.
- Nominee will receive formal recognition from the KBHN network and showcase their achievements.

How to Nominate?

To nominate a mentor/supervisor or self-nominate, please submit the following to training@kidsbrainhealth.ca:

- The completed application form: [Outstanding Mentor-Supervisor - Application Form](#)
- A support letter

Nominations are due by **January 18, 2024**.

Please contact the KBHN training team (training@kidsbrainhealth.ca) for any questions.

About the Kids Brain Health Network

- The Kids Brain Health Network (KBHN) is a national research network established under the Networks of Centres of Excellence (NCE) Program, an initiative of the Canadian government to foster partnerships between universities, industry, government, and not-for-profit organizations with the goal of mobilizing knowledge generated through research in ways that deliver socio-economic benefit to Canada.
- As a national organization, KBHN partners with community groups, non-profit organizations, industry, parents, clinicians, health professionals, and provincial and federal governments to advance evidence-based solutions to improve outcomes for children with neurodevelopmental disabilities and their families. KBHN particularly values the voice of families and individuals with lived experience in the research that

it funds, as partners in the research itself, in the review process and in mobilizing the knowledge generated.

- As a part of this network, the KBHN National Training Program aims to enhance the training of the next generation of researchers and professionals to undertake interdisciplinary and inclusive research to generate and/or apply new knowledge.

Equity, Diversity, and Inclusion (EDI) Statement

KBHN is committed to excellence in research and research training. Achieving a more equitable, diverse, and inclusive Canadian research enterprise is essential to creating the excellent, innovative, and impactful research necessary to advance knowledge and understanding, and to respond to local, national, and global challenges in the field of neurodevelopmental disabilities.

With these goals in mind, KBHN is committed to:

- Supporting equitable access to funding opportunities for all members of the research community
- Promoting the integration of equity, diversity and inclusion-related considerations in research design and practices
- Increasing equitable and inclusive participation in the research system, including on research teams
- Collecting the data and conducting the analyses needed to include equity, diversity, and inclusion considerations in decision-making

Through these means, KBHN will work with those involved in the research system to develop the inclusive culture needed for research excellence and to achieve outcomes that are rigorous, relevant, and accessible to the concerned stakeholders in the field of neurodevelopmental disabilities.
